SHAMANISM

In various human societies these days, there exist some individuals whose job is to supplement those religious practices of other people. These individuals also exist to guide people in such religious practices. These individuals are really skilled at influencing and contacting supernatural beings as well as manipulating some supernatural forces. Such individuals are called Shamans and they are actually practicing what is commonly called Shamanism. Get all the info you need here.

Shamanism is an ancient spiritual belief of the Turkic and Mongolian peoples living in Siberia, Central Asia and in the far west part of the Eastern Europe. In Mongolia and Siberia, this is also usually called “Tengerism” since it also means “honouring of spirits”.

SHAMANIC HEALING

Shamanic healing is an ancient and powerful practice that can:

- Reconnect you with qualities of self you have banished or buried.
- Unhook you from people or events of your past.
- Remove blocks that hold you back.
- Heal physical ailments.

If you are ready, shamanic healing can restore you to who you were before the hurts and trials of life that battered your soul.

What is Shamanic Healing?

Shamanic healing is healing at the spiritual level. Essentially it is spiritual reconstruction; bringing back lost parts of our soul and removing spiritual blocks or baggage from our bodies or energy fields. It leaves us lighter and brings us to our full selves; who we were meant to be.

Although shamanic healing works with our soul, it generally heals our emotions, our psyches, and our bodies too, because everything is interconnected.

Shamanic healing works quickly and powerfully and usually is best performed by a trained and experienced shamanic healer on behalf of the client. When a shaman connects with non-ordinary reality to ask for healing for a client, the healing practices that may be identified are infinite, but three are common: soul retrieval, power animal retrieval, and extraction.
